Wilwood "Banksia" Street Brake Kit

Race Products latest street legal brake kit is an upgraded version of our popular Banksia system.

Designed to fit all versions of the 1500 Series Steel Floater Kits, this system uses a Holden HSV 315mm Slotted and Ventilated Rotor, with standard factory handbrake system.

By using a standard and efficient factory handbrake, these kits are acceptable to engineers here in Australia for registration, (please check with your own Registration Authorities first)

This brake kit uses Wilwood Dynapro 4 piston callipers with dust boots.

Our CNC Machined Billet Aluminium Caliper Brackets are anodised and fitted with steel inserts .

The kit is supplied with new Genuine OEM parking brake back plates, shoes and fittings

Genuine DBA Club Spec 4000 Series Rotors are CNC Milled to fit exactly with your choice of wheel stud pattern.

The Wilwood Street Brake Kit is available as an upgrade on 1500 Series Floater kits
